eG — Enabling Service Excellence

Many of the world's largest deployments of Virtualization, Cloud, Citrix and Virtual Desktop Technologies rely on eG Enterprise to make Monitoring, Diagnosis & Reporting of key IT Services fast, simple and complete. High service uptime, increased user productivity and satisfaction, reduced operational costs and effective capacity planning and optimization are some of the key benefits.

eG Enterprise breaks new ground with the only end-to-end, auto-diagnostic IT service monitoring solution that gives your team the visibility required – Applications, Servers, Network, Virtualization, and Cloud – to ensure a great digital user experience, every time. Deploy easily as SaaS or on-premises and start monitoring your environment today.

Platforms Supported

- Virtual Desktop Infrastructure
- Database Servers
- Web Servers
- Application Servers
- Mail Servers
- Messaging Servers
- Microsoft Applications
- Infrastructure Servers
- SAP
- 2X Products
- Voyager
- Backup Servers
- Siebel CRM
- Others

Features

- End-to-End Performance Visibility
- User Experience Monitoring
- Application Code-Level Visibility
- Enterprise Application Monitoring
- Deep Virtualization Monitoring
- Cloud Performance Assurance
- Universal Monitoring of Every Layer & Every Tier
- Infrastructure Topology & Dependency Mapping
- Integration and Extensibility
- Automatic, Infrastructure-Wide Root Cause Diagnosis
- Preemptive Problem Detection & Alerting
- Right-Sizing and Infrastructure Optimization Made Easy
- Intelligent Reporting for Auditing and Analysis
- Configuration Change Tracking
- 100% Web-Based Architecture
- Multi-Tenancy & Personalized Views

Benefits

- Application Availability
- Cost Reduction
- Operational Efficiency
- Performance Optimization
- Migration
- Scaling Rollouts
- Compliance Tracking
- Release Preparedness
- Ensure User Satisfaction
- Lower IT Operations Costs
- Safeguard New Investments
- Save Business Revenue
- Increase Operational Efficiency
- Do More with Less
