

Overview: Silk Central reflects the way today's organizations work. As a scalable, flexible test management engine, it helps development teams deliver better quality software faster -ensuring greater value in a shorter timeframe.

Silk Central provides goal and requirement driven test management. It coordinates technologies, resources, team capabilities, and meaningful deliverables to promote quality, collaboration, efficiency, and confidence. Silk Central scales from supporting a single project to being the axis that unites software development teams at different locations, right across an organization.

Testing is an area that software delivery teams see as a time-consuming, poorly focused hindrance to achieving project goals. Micro Focus® Silk Central™ is an open test management solution that addresses this issue by aligning goals and requirements with testing, technology, and processes. It provides an integrated framework for improving productivity, traceability, and visibility for all types of software testing and ensures control over application readiness.

Key Features and Benefits

- ☞ Shared Test Assets Across Projects
- ☞ Manage Requirements from Multiple Sources
- ☞ Advanced Manual Test Interface
- ☞ Management and Control of Test Executions
- ☞ Side-by-Side Results Comparison for Automated Tests
- ☞ Agile Test Management
- ☞ Highlight Risk Mitigation and Quality Goals
- ☞ Mobile Testing
- ☞ Real-Time Reporting and Analytics
- ☞ Flexible Reporting
- ☞ Simplify User Maintenance with LDAP or Active Directory (AD)

System Requirements

Operating System Support: ☞ Windows Server, 2012, 2012 R2, 2016

Additional for Mobile Device Testing: ☞ Android 4.4, 5.x, 6.x, 7.x, 8.x
☞ iOS 9.3, 10.x, 11.x

Additional for Execution Server: ☞ Windows 7 SP1, 8, 8.1 (32/64bit),
Windows 10 (32/64bit) ☞ Ubuntu, Red Hat Enterprise Linux, Debian, SUSE® Linux

Web Server Support: ☞ IIS 8, 10 (32/64Bit) ☞ Standalone web server (Tomcat)

Web Browser Support: ☞ Internet Explorer 10 or later (no compatibility mode),
Mozilla Firefox, Google Chrome, Microsoft Edge

Database Support: ☞ Microsoft SQL Server 2012 SP3, 2014 Sp2, 2016
☞ Oracle 11g (11.2.0.4), 12c (12.1.0.2)
