ZENworks Suite

MICRO FOCUS®

Overview: You manage hundreds or thousands of devices and applications, numerous assets, and an unending list of software patches. And on top of it all, your workforce is constantly changing with new requests every day. It can be a difficult and frustrating responsibility. The ZENworksSuite can help.

ZENworks Suite is a suite of seven products. Discounts are available upon purchase of the whole suite. Please contact our Support & Services for more information.

Products

ZENworks Service Desk: Reduces your mean time to repair & continuously improves your service management environment by streamlining & automating a complete range of service desk functions.
Highlights: ☞ Build the best service environment ☞ Align your IT services with business needs ☞ Use IT to drive positive business outcomes ☞ Tap into all the advantages of ITIL v3

Desktop Containers: Helps you overcome the challenges associated with application conflicts and the ever-changing desktop and browser landscape by allowing you to create applications that can be packaged once & run on any Windows XP or higher device.
Highlights: ☞ Turbo for Desktop Containers add-on ☞ Migrating Windows has never been easier ☞ Slash the time required to test and deploy applications

ZENworks Asset Management: Integrates inventory, software usage and license reconciliation to get the most accurate view of software installations and license compliance available.
Highlights: ☞ Reduce IT costs ☞ Lower compliance and security risk ☞ Make more informed software purchasing decisions

ZENworks Configuration Managemen: Automates the lifecycle management of desktops, laptops and mobile devices so you can dramatically reduce TCO and ensure all configurations comply with corporate policies.
Highlights: ☞ Automate and accelerate your Windows 10 migration ☞ Boost user productivity ☞ Eliminate IT effort

ZENworks Endpoint Security Management: Is a location-aware, policy-based solution that protects the data on every PC, controls how endpoints communicate and access information and monitors and maintains the health of endpoint devices all from a single console.
Highlights: ☞ Get powerful protection for all of your portable devices ☞ Put end-user devices behind a potent firewall ☞ Protect against bugs in USB Storage devices ☞ Create data encryption when you need it the most

ZENworks Full Disk Encryption: Improve license compliance with a complete view of software installations and sophisticated license reconciliation capabilities.
Highlights: ☞ Get automated data protection that locks out threats ☞ Manage encrypted devices remotely and cut travel costs ☞ Give IT staff a familiar management environment

☞ **ZENworks Patch Management:** Set patch policies so that all your devices have the right Windows patches at the right time.
Highlights: ☞ Lower patch management costs and labor ☞ Expand the reach of your patch management solution ☞ Boost compliance with better patch management
