

We GT Enterprises are pleased to announce that we have collaborated with Open-e Software to promote their range of products. Open-e is a software company that cooperates with a large number of leading storage solution providers. Open-E storage management products are known throughout the storage industry for their robust architecture, ease-of-use and affordability.

Product Overview

JovianDSS

ZFS-based storage operating system: Offers unlimited scalability and high performance, at the same time providing back-end storage for virtualization and backup. Thin provisioning, tiered caching and Deduplication make this a solution for demanding enterprise environments.

Features

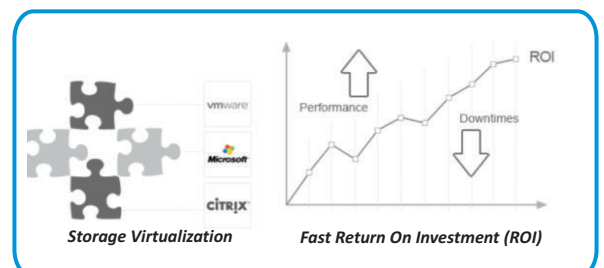

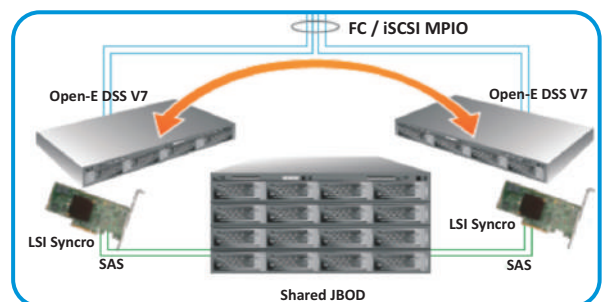

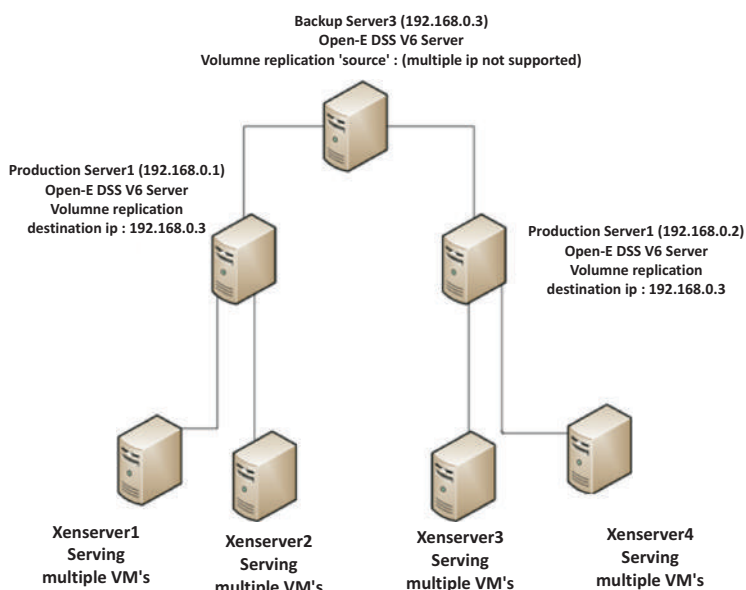

- ☞ Most scalable and flexible
- ☞ Superior stability and performance
- ☞ Unlimited file size
- ☞ Unlimited storage capacity
- ☞ Unlimited compatibility
- ☞ Warranted data integrity

Data Storage Software V7

DSS V7 is a Linux-based Data Storage Software used for building and managing centralized data storage - NAS and SAN.

Features

- ☞ Active-Active Failover (Feature Pack)
- ☞ Active-Passive Failover
- ☞ Full Hyper-V Cluster Support
- ☞ Volume Replication
- ☞ Snapshots
- ☞ Continuous Data Protection
- ☞ Storage Virtualization
- ☞ VMware Ready and Citrix Ready certifications
